**THE SCIENCE INITIATIVE**

*Plant conservation research and education are at the heart of the Science Initiative. The Daniel F. and Ada L. Rice Plant Conservation Science Center provides Chicago Botanic Garden scientists with more tools to address the environmental challenges we face today and trains those who assume that responsibility in the future. The following individuals, corporations, foundations, and government agencies have generously supported the Science Initiative with gifts of \$1,000 or more through December 31, 2012.*

## THE KEEP GROWING CAPITAL AND ENDOWMENT PLAN

*The Keep Growing Capital and Endowment Plan identifies capital and endowment fundraising goals as stated in the Chicago Botanic Garden’s Keep Growing Strategic Plan 2010-20.*

*The long term well-being of the Garden depends on an ongoing and predictable stream of financial support. As the Garden grows in attendance and relevance, more endowment funding will ensure the Garden remains both a beautiful place and a leader in plant science research and education.*

### Major capital goals:

- Shoreline Gardens and Restoration. The reconstructed North Lake shoreline features more than 120,000 native plants to help stabilize shoreline soils.
- The Learning Campus, including an Education Center, the Grunsfeld Children’s Growing Garden, the Kleinman Family Cove, and a new garden. The Learning Campus addresses the need for stronger science education for all students, including those from underserved communities.
- Plant Production Greenhouse and Nursery. A new modern structure is essential to maintaining horticultural excellence, delivering a superior four-season visitor experience, and supporting cutting-edge plant conservation research.
- Bike Path and Woods Plan, Café Renovation, and Brown Nature Reserve.
